See Planning Analytics in action

What to expect

In a 30-minute meeting, we'll show you how you IBM Planning Analytics can help you:

- **Elevate, not replace your spreadsheets.** Break through the limitations of manual spreadsheet planning.
- **Visualize real-time, accurate data** in a unified, secured, and collaborative dashboard.
- **Perform real-time analysis of thousands of data points** from multiple sources. Easily show and communicate your insights with built-in reporting.
- **Deliver more accurate forecasts.** Discover how you can test your assumptions with unlimited 'what-if' scenarios.
