

Customer Engagement Webinar & Workshop

**IBM Spectrum Protect**

If you knew everything, you could do anything.

Ask yourself honestly, how many times have you said, "If only I had more visibility into...", "I wish there was a way to protect, manage, reuse.."

Imagine a world where the answer to your most pressing business issues was not only attainable, but easily accessible, and affordable.

In this exclusive webinar, and face to face events, we'll reveal The art of the Possible with IBM Spectrum Protect and the future of Data Protection and Management. We'll demonstrate that with the right type of protection, instant access to your data, reduce cost, you can achieve any business objective.

**Webinar Registration:** <http://ibm.biz/Protect>

**Face to Face Spectrum Protect Event Registration:**

- I. [New York Sept 26th](#)
- II. [Houston October 2nd](#)
- III. [Chicago October 9th](#)

Join us to see how companies like yours are utilizing IBM Spectrum Protect to gain a competitive advantage and protect your critical business assets.

Thank You
