Agenda

- Overview of single purpose device use cases
- Android COSU (Kiosk Mode)
- iOS App Lock/ iOS App Compliance
- Windows Kiosk mode
- Open Q&A

Single purpose device use cases

- Ensures devices are only being used for their intended purpose by locking device down to specific app(s)
- Lock down company owned devices to single or multi-app, examples:
 - Banks and credit unions
 - Transportation
 - Healthcare
 - Retail
 - Restaurants
 - Education
 - And more...

Android COSU (Kiosk mode)

- Enroll as Android Enterprise Device Owner
 - Generic username/password can be used
 - Assign meaningful device name
- Add apps to the App Catalog
- [Configure COSU \(Kiosk Mode\) Security Policy settings](#)
 - 1 app or multiple apps
 - Find the App IDs (APK Extractor if needed)
 - Wifi and Bluetooth settings
 - Kiosk launcher settings
- Set up Branding
- Distribute policy to the device
- Exiting Kiosk mode
 - Enable bypass in policy
 - Device Action
- [Enable-Kiosk custom command](#)

iOS App Lock/App Compliance

- Enroll device as Supervised with DEP
- Add apps to the App Catalog
- [Configure App Lock in Security Policy for 1 App](#) * **OR**
- [Configure Application Compliance for Multiple Apps](#)
 - Use Allowlist, search to select Apps
- [Configure Home Screen](#)
- **Note:** Only way to exit is to update policy and re-distribute to the device

Windows Kiosk mode

Setting up a Windows device in Kiosk mode

Configure device in Kiosk Mode

Win 10+ Pro, Edu, Ent

^ Kiosk Mode Assigned Access

Enable Kiosk mode (Assigned Access)

Click [here](#) for instructions on recommended setup for kiosk mode.

Note: Users are required to sign out and sign in again to see any Kiosk policy changes.

Win 10+ Pro, Edu, Ent

^ Configure Kiosk mode

Kiosk mode type*

We recommend using Multi app Kiosk over a Single app Kiosk as it will be soon depreciated by Microsoft. Multi app Kiosk support single app configuration as well.

App ID of Universal Windows App*

Click [here](#) for instructions on how to get App ID.

Single app Kiosk

-- Select --

Single app Kiosk

Multi app Kiosk (Recommended)
