Re-Imagine IBM DataStage
Thursday, October, 7 12:00pm EST

Recently named a leader in Gartner's 2021 Magic Quadrant for data integration, IBM is completely re-imagining data integration.

With new features and a completely redesigned UI, IBM DataStage is evolving with your business needs so you can adapt, transform, and innovate. Choose to upgrade and modernize so you can speed time-to-value, lower costs, and seamlessly integrate DataStage with the core services included on the platform.

During this live presentation with a Q&A session, you will be joined by peers from across the world as well as IBM DataStage experts to discuss:

➢ AI fueled data integration strategy

➢ new features within IBM DataStage

➢ availability on-premises & as-a-service

➢ seamless migration options

To register please visit the link below or contact your IBM representative. See you there!
