IBM Documentation

- [Business Continuity for SAP on IBM Z, Edition 2020, SC33-8206-12.](#)
This book applies to SAP NetWeaver Release 7.2 up to and including 7.5x. The documentation covers the latest releases of the involved software components. It is based on the functionality that is delivered with the *SAPSRV add-on policy of IBM System Automation (SA) for z/OS 4.1 with APAR level OA54684 and of SA for z/OS 4.2 with APAR level OA58750.

This edition includes support of Red Hat Enterprise Linux for IBM Power System Big Endian and Little Endian as application server platform and support for suspend and resume functions which were introduced with SA for z/OS 4.1.
