

“Teaming with IBM for cloud infrastructure immediately lets people know that we’re a company operating at a higher level.”

—James Coyle, Chief Executive Officer, MediStreams Inc.

Business challenge

To scale and enhance the reliability of its cloud platform, MediStreams Inc. needed to team with a cloud infrastructure provider offering dedicated hardware options and proven VMware tools and support.

Transformation

Provisioning vCenter Server on IBM® Cloud™ running on bare metal server infrastructure, IBM established connectivity with MediStreams’s existing environment, creating a highly resilient hybrid cloud platform with powerful capabilities for managing the organization’s VMware resources.

James Coyle
Chief Executive Officer
MediStreams Inc.

Business benefits

Decreases launch time
for new customers with the IBM Cloud hosting solution

Gains competitive edge
by establishing a reputation for quick, agile solution deployment

Scales for growth
cost-effectively with IBM Cloud resources available on demand and private network connectivity at no charge

MediStreams Inc.

Reduces deployment time for new customers with IBM Cloud technology

Established in 2009, [MediStreams](#) offers cutting-edge IT solutions for managing the healthcare revenue cycle. Providing payment processing, explanation of benefits (EOB) conversion, reconciliation, medical lockbox and correspondence capabilities, the company’s product suite helps healthcare providers improve process efficiency and drive down costs while maintaining compliance with all associated regulatory agencies. MediStreams is a privately held business headquartered in Roswell, Georgia.
