John Wang
CEO, IAdea

TRIRIGA offers a robust solution for creating and managing **flexible workplaces**

Space Planners need strategic, administrative and oversight capabilities to manage and tune how space is to be used efficiently

Space Users expect to access facilities and space seamlessly, to add productivity to their day rather than impeding work tasks

Foundational Strategy

- CAD and BIM integration
- Dynamic space planning
- Space forecasting
- Stacking

Interactive Management

- Space allocations and chargebacks
- Move management
- Space audits
- Occupancy monitoring
- Space utilization
- Floor / building level utilization

Daily Usage

- Personal desk and meeting reservations
- Outlook integration
- Move requests
- Locate colleagues

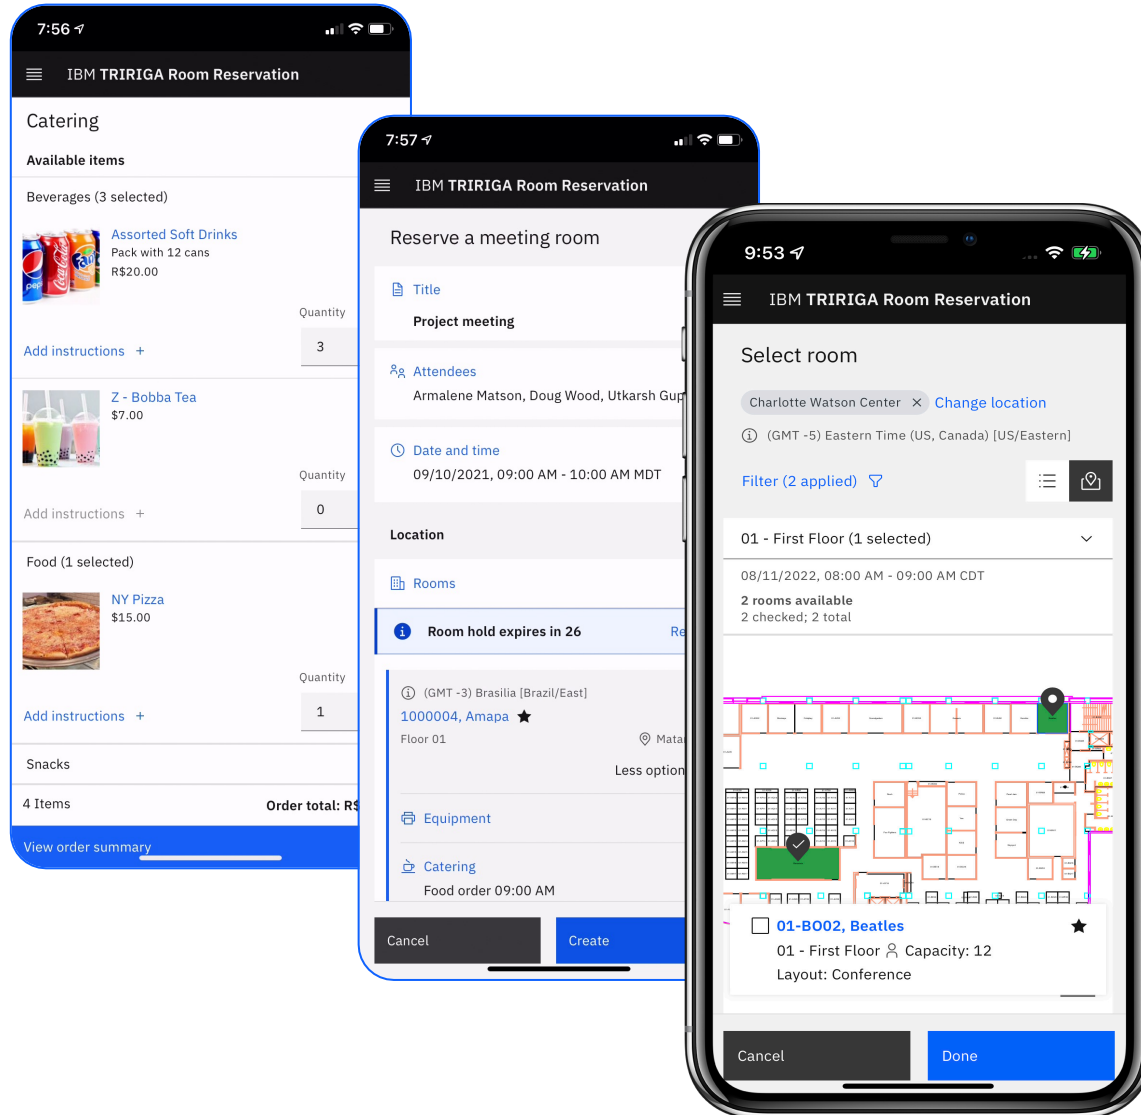

Elevated Experience

- Indoor maps and wayfinding
- Natural language AI assistant
- Scan-to-claim desk
- Mobile apps
- Interactive kiosks and room panels

Employees need a flexible solution to make room and space reservations

Daily
Usage

Key Benefit

- Optimizes workplace resources by increasing space utilization and reducing space needs to improve employee satisfaction

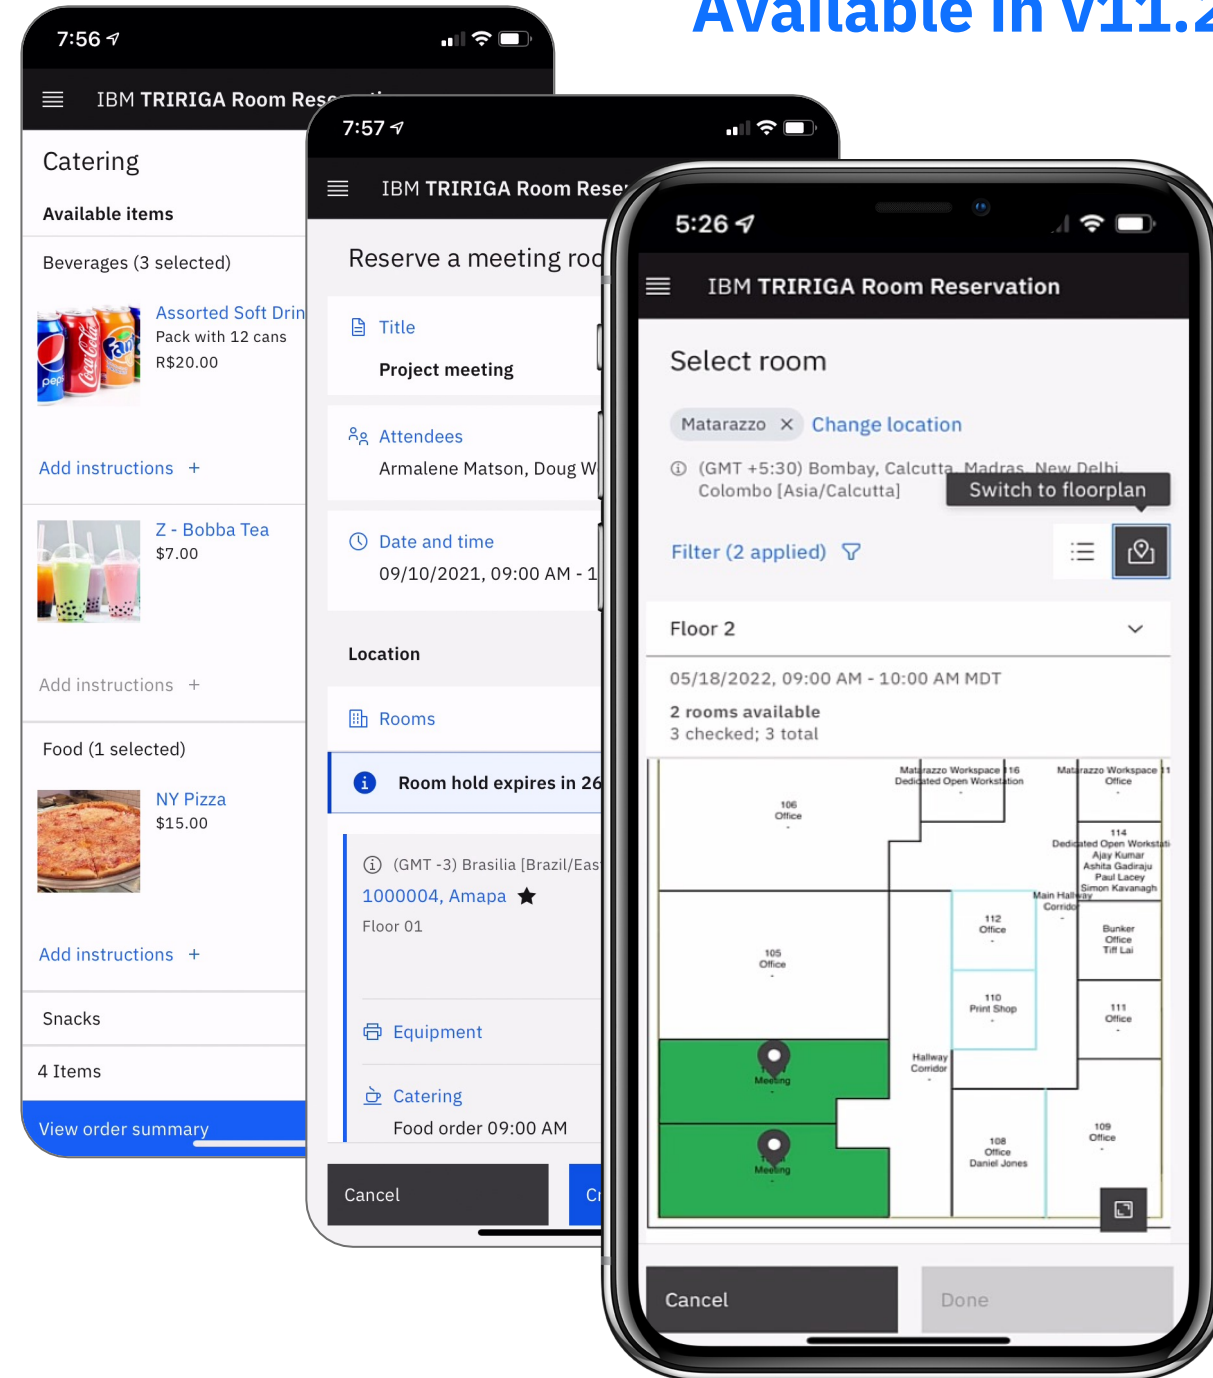

Responsive Design

- Responsive design allows for mobile access for occasional, every-day users
- View space information & availability on a floorplan
- Exchange integration for synchronization of events and reservations
- Agenda view to see all meetings & reservations in one view. Ability to check-in or release spaces if reservation ends early

All-New Reserve Perceptive App elevates user experience

- ✓ **New Reserve Design** - Simplified process to reserve meeting rooms and workspaces, optimized for mobile use
- ✓ **Enhanced Exchange integration** - Perceptive app connects directly to Exchange and TRIRIGA for tight synchronization of events and reservations
- ✓ **Agenda View** - See all your meetings and reservations in the agenda view where you can check in or release rooms if not needed
- ✓ **Invite** - Add meeting attendees, view their availability, and send them invitations
- ✓ **Delegates** - Create reservations as a delegate user
- ✓ **Catering** - Easily request catering from the menu
- ✓ **Floorplan** - View spaces information within the floor plan
- ✓ **Online meetings** - Add your WebEx or other online meeting links to your invitation
- ✓ **QR code** - Scan QR code to claim a workspace
- ✓ **Time Zone Auto-Switching** - App automatically adjusts as users move across time zones

Available in v11.2

Integration with calendaring systems enables seamless room scheduling

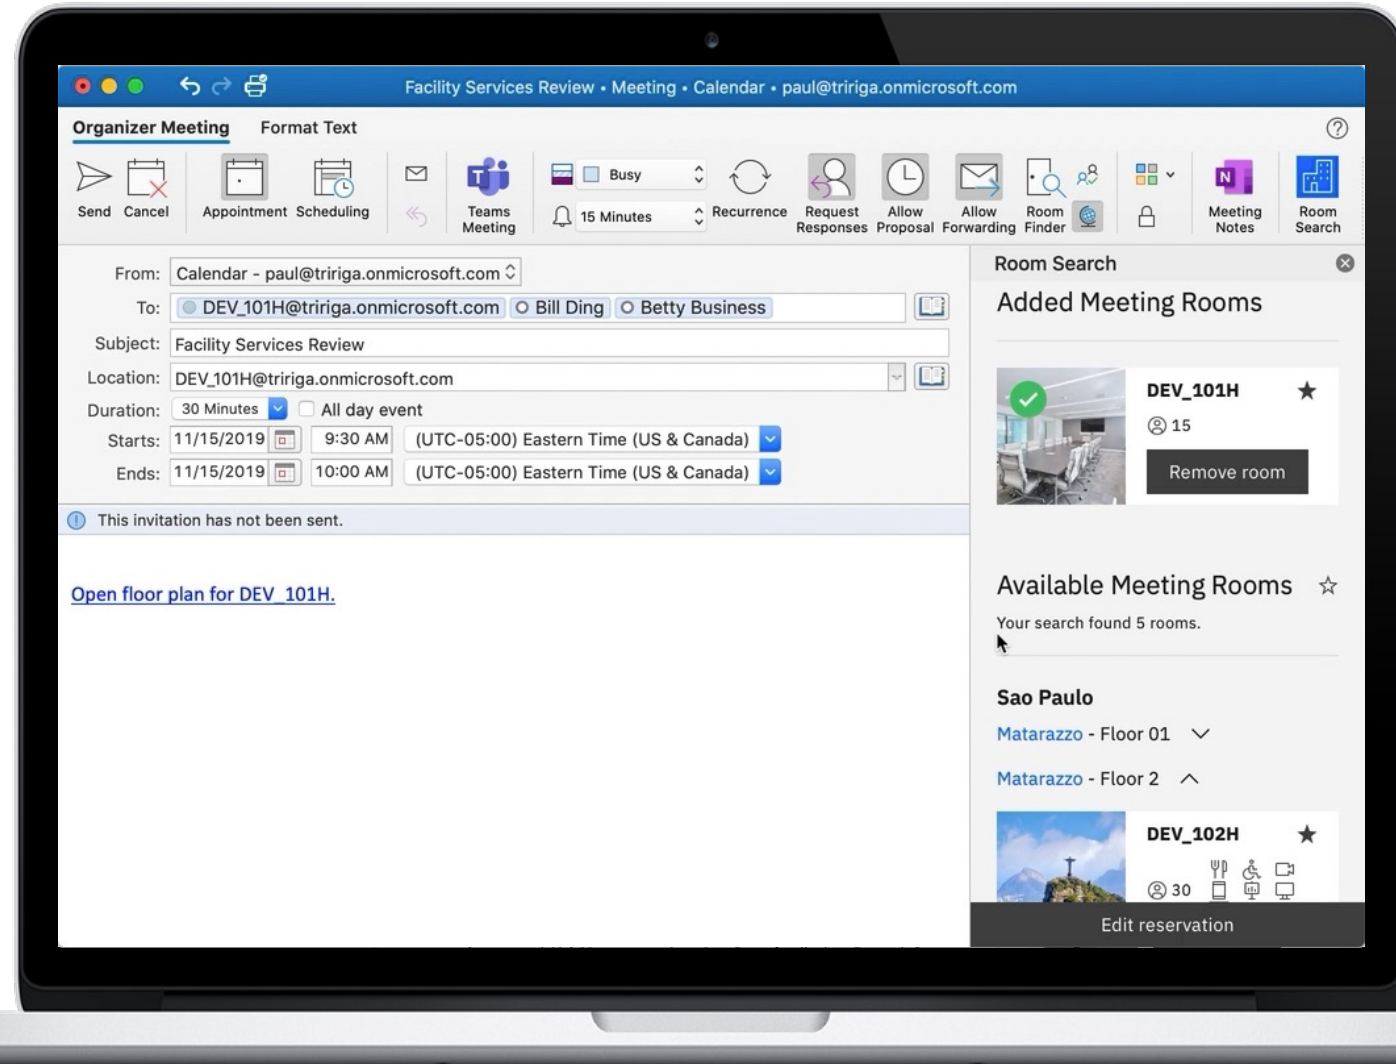

Daily Usage

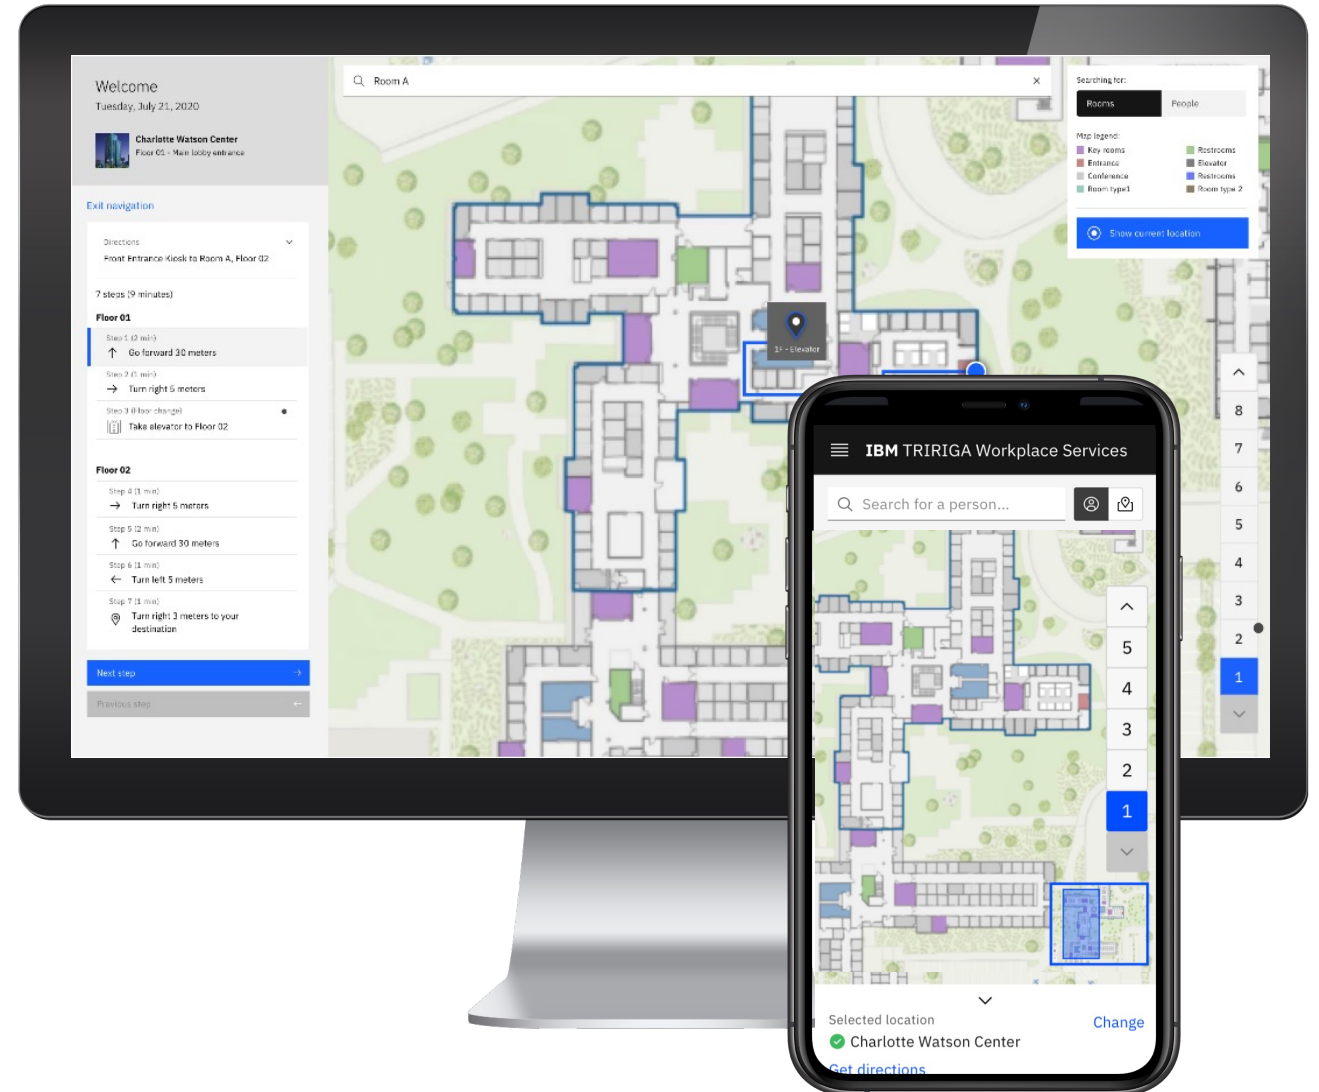

MS Outlook Room Search

- Find meeting rooms right from within Outlook
- Visual Floor Plan search quickly identifies available rooms
- Support for Windows, Mac, Web versions of Outlook

Improved **wayfinding** powered by Esri ArcGIS Indoors

- Indoor Maps within Locate App for employees
- Responsive design for mobile and desktop with interactive indoor/outdoor maps for campus/building
- Wayfinding and navigation with search for rooms and people
- Integration and authentication with Esri ArcGIS Indoors

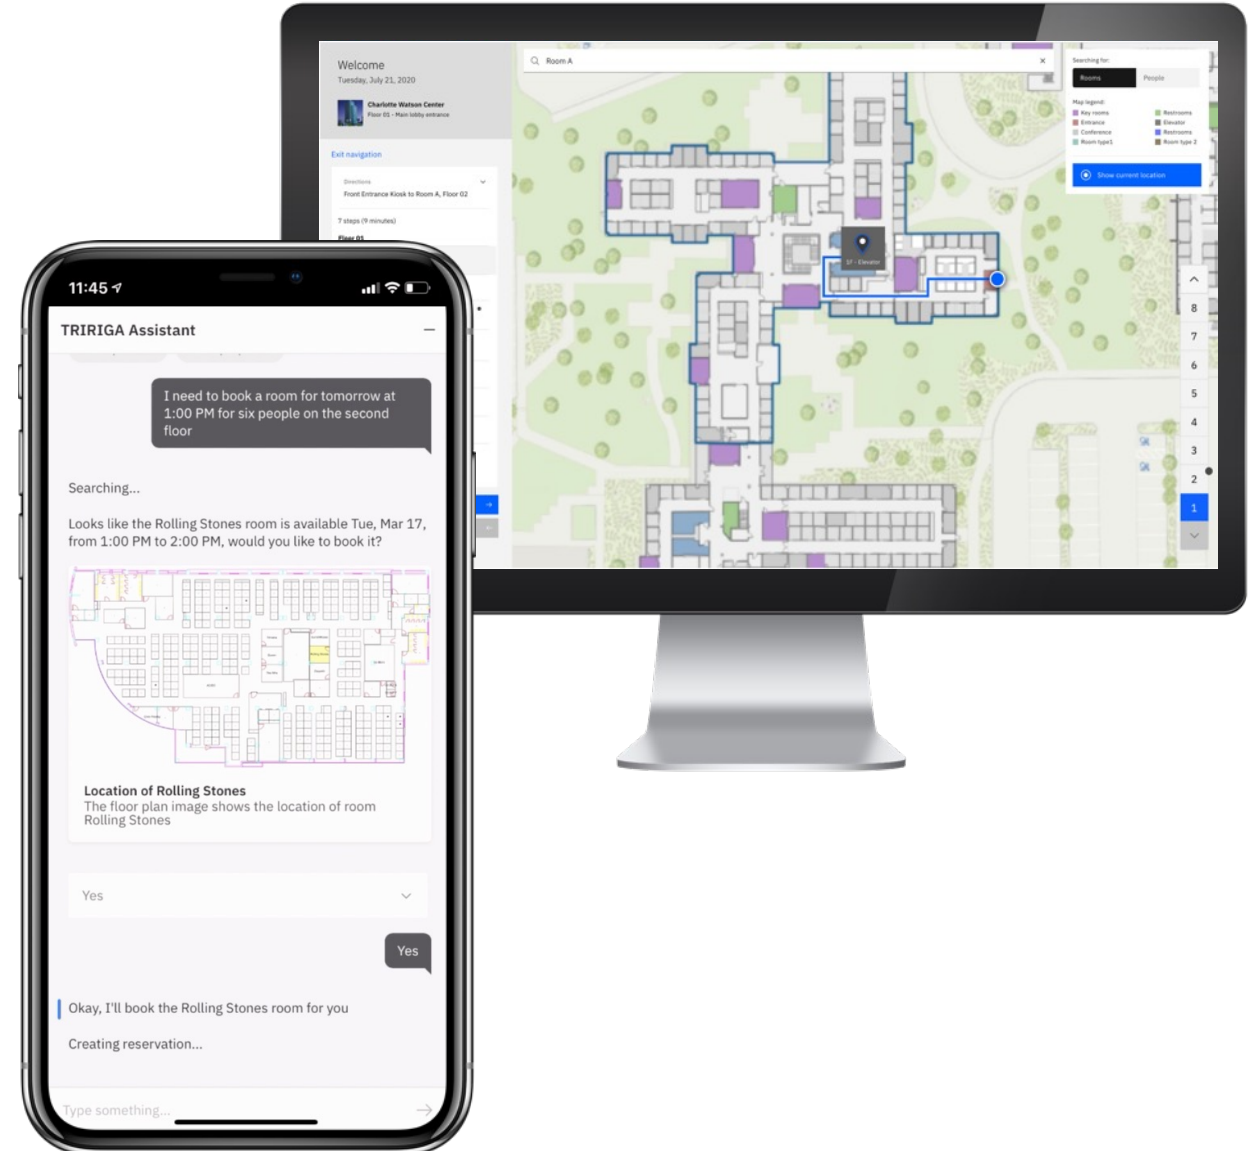

Optimal employee experience with a smart, conversational AI assistant

AI Assistant delivers natural language engagement with facility services within TRIRIGA perceptive apps, Slack and Microsoft Teams

Assistant skills:

- Reserve a room
- Submit a service request
- Locate a colleague or room
- Configurable responses

Room panel interface enables on-the-spot booking of meeting rooms

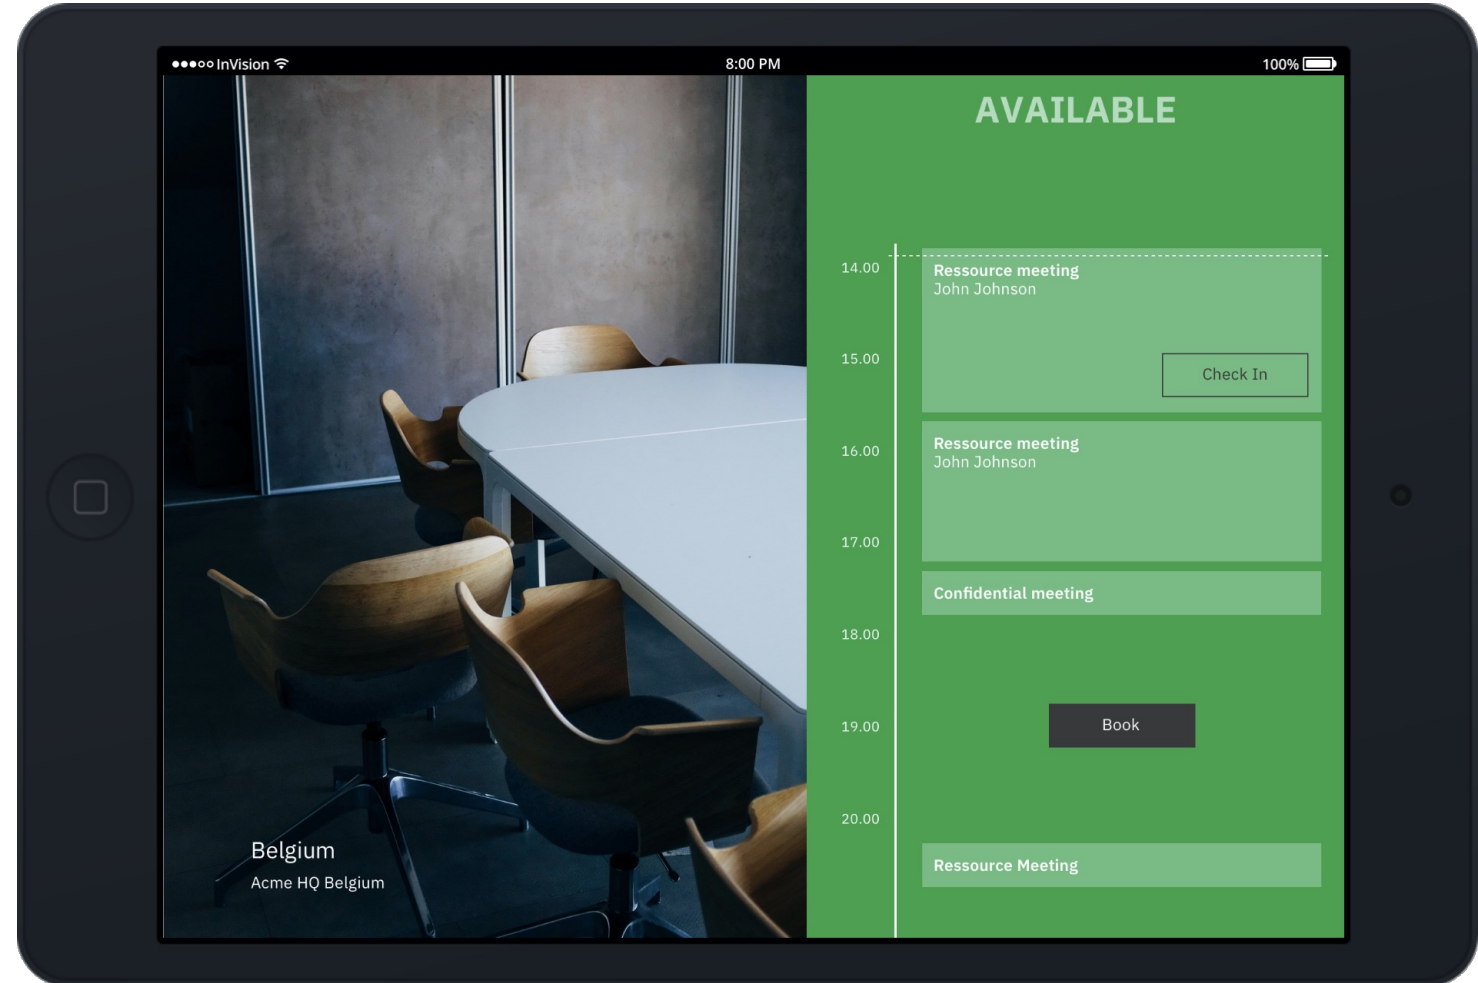

Elevated
Experience

Meeting Room Panel

- Fast and responsive booking
- Visual display of current room status
- Enables user check-in

Demo

Certified HID Advantage technology partner

10" Award-Winning Enterprise Room Booking Panel

WRP-1000 Series

Premier Design for Meeting Room Management

Halo light gently illuminates to
offers high visibility while
enhancing aesthetics

Single Cable Installation

Single PoE cable with designated
cable routes for clean, organized,
and versatile installation

Feature Rich a for Enhanced Usability

A quick 'tap' with your mobile or
ID card efficiently authenticates
people who check in and out

Enterprise-Grade Security

Google Android 9, ISO27001,
802.1x, and network encryption

Two Panel Designs

Model: **WRP-1000**

Designated space for excess cable storage for tidier mounting

Single cable PoE+ allows easy installation

360° Halo Lighting
Red for occupied, green for available, and yellow for soon-to-be occupied

NFC, HID Card, and HID Mobile Access Reader

Model: **XDS-1078**

Elegant lights bars with soft illumination

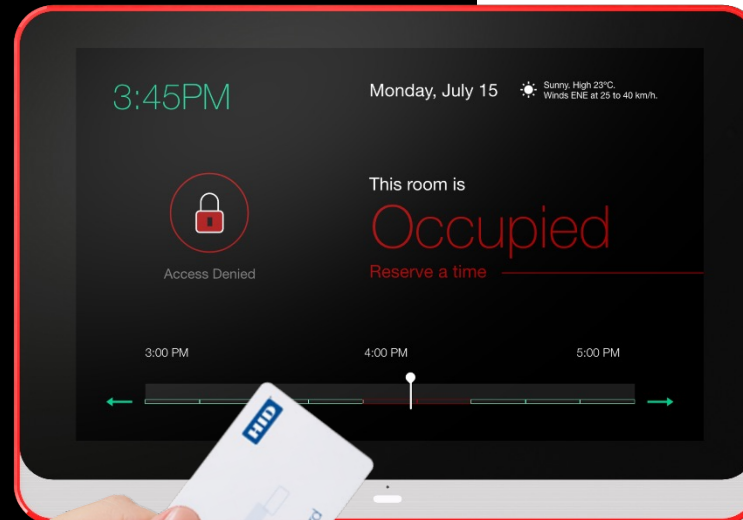

10-point multi-touch screen for on-the-spot booking

Slim design for zero-gap wall, window, or glass mounting

The diagram illustrates two smart room panel designs. The WRP-1000 (left) is a white panel with a large screen displaying room status (Available) and booking information. It features a green dashed line indicating a designated space for excess cable storage. The XDS-1078 (right) is a black panel with a screen displaying room status (Occupied) and booking information. It features a red light bar and a slim design for zero-gap mounting. Both panels are shown with their respective mounting brackets and labels.

Prioritizing **safety** and **privacy** with an integrated door lock system

Pairs lockset with Wiegand access control system

Company-issued ID card authentication for **speedy** **check-in/out**

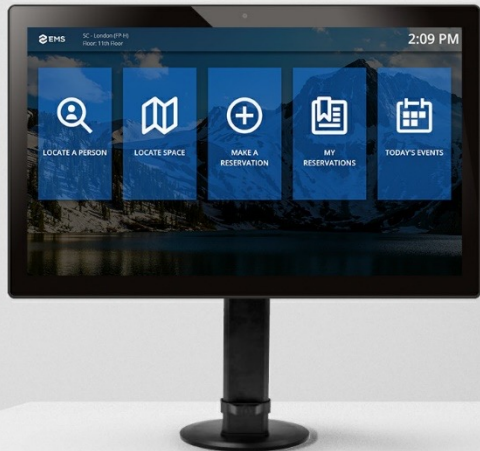

NFC, HID Card, and even HID Mobile Access

Unlock with Apple Wallet IDs coming in 22Q4
(And Android phones, of course)

IAdea 22" Wayfinding Kiosk

XDS-2288

Superior Interactive Experience

A quad-core processor ensures a smooth interactive experience. Browse through available meeting space and reserve with a few taps.

All-in-One Smart Design

Rotate the signage between portrait and landscape positioning to maximize the presentation of your media contents.

Wide-Angle Viewing

250 nits brightness for the best visual experience, even from afar.

Tempered Glass

Anti-scratch display withstands strenuous interactive applications.

Enterprise-Exclusive Remote Device Management That Keeps Pace with Organizational Growth

Fast device onboarding and management at scale

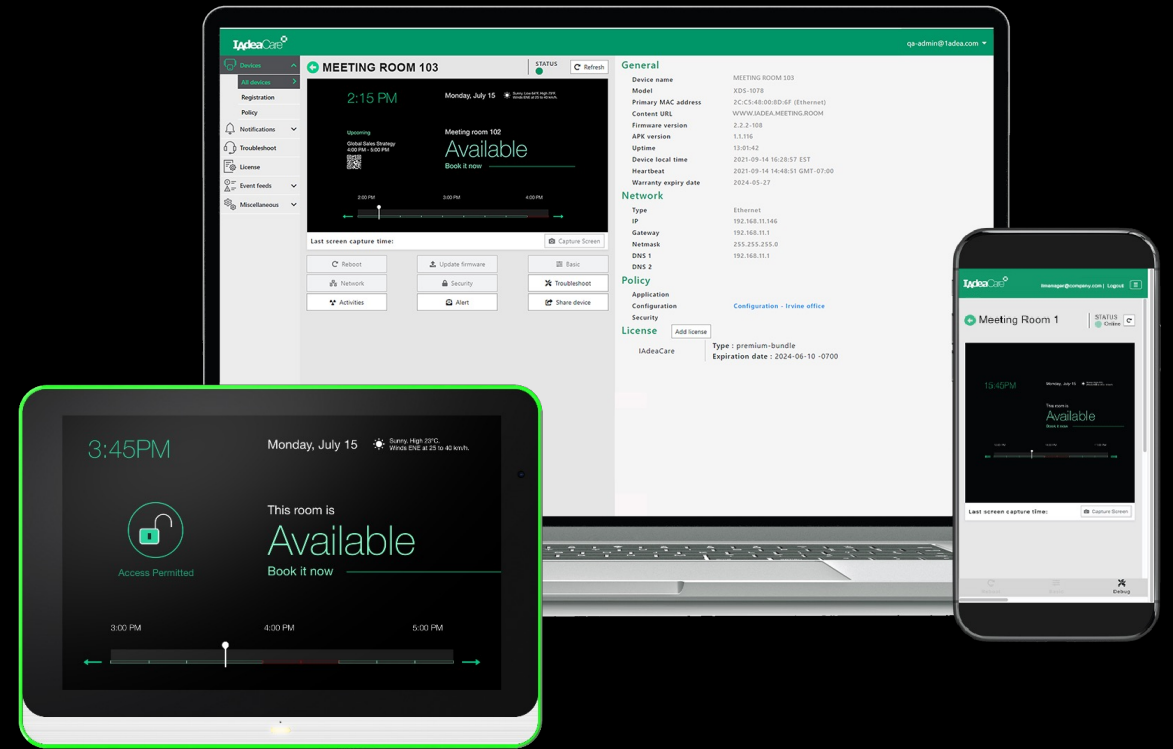

Remote Device Management

IAdeaCare™ Standard

- Remote device deployment and configuration
- Device display remote screenshots
- Real-time device monitoring
- Remote troubleshooting and reboots
- Searchable and auditable device change logs
- Firmware update scheduling
- Device warranty and license tracking
- Batch and individual device administration
- Auto-maintenance screen mode

IAdeaCare™ Enterprise

- Role-based administration
- SSO support
- UI customization and branding
- SCEP server support

Enterprise-Grade Data Security

802.1x ensures IT teams have full authority over approving in-field IAdea devices and prevents rogue devices from being added to the network

HTTPS protects devices from unauthorized access through automatic encryption of the web interface

ISO 27001 Certification ensures all IAdea devices and services meet high security requirements

Centralized deployment and enforcement of security policies with **IAdeaCare**
