Feel free to forward this invitation to anyone in your organization who may be interested.

You're Invited!!!

The Spectrum Protect Users Group meeting has leading experts who will walk you through the what's new in recent announcement of Spectrum Protect and Protect Plus portfolio, differentiators, and use cases for Modern Data Protection. We provide open discussion around our Data Protection and Solutions, where the market is trending, and how you can leverage our solutions to create the most cost-effective data protection environment with market leading technology.

- Meet the technical teams who can help you leverage IBM Spectrum Protect Portfolio in your environment
- Discuss topics relevant to you with IBM storage experts
- Network with other customers and exchange ideas.

IBM Spectrum Protect V8.1.7 and IBM Spectrum Protect Plus V10.1.3 deliver new application support and optimization for long term data retention.

Agenda:
- Light Breakfast Served
- Spectrum Software Family Review
- Spectrum Protect Updates to 8.1.7
- Lunch Served
- Spectrum Protect Plus Updates to 10.1.3
- Customer Presentation
- Customer Roundtable

I hope you'll be able to join!
Sanjay Patel, Sanjaypa@us.ibm.com
