

You're invited

IBM Cyber Range Experience for the Public Sector

Join us at the IBM X-Force Command Center in Cambridge MA for a briefing that will simulate how a breach unfolds in real time. During this event we will showcase the attack vectors that healthcare, life sciences, education, and government organizations experience every day.

Attendees will gain a greater understanding of security best practices and tactics, the importance of implementing a security strategy and the leadership skills required to deal with a major security issue.

Highlights of the event include:

- A Cyber simulation: Ox Response Challenge
- Dark Web Deep Dive—A closer look at the cybercrime industry
- Collaboration and Networking with your peers
- Networking Reception the evening prior

*Government Owned Entities are welcomed to cover their own drinks and food at the networking reception.
