IBM

FlashSystem 5200

Ideal for providing Enterprise-Level Capabilities at an Entry-Level Cost

SMALL FOOTPRINT **HUGE IMPACT**

$25,500
entry price
9TB usable capacity, NVMe, 256GB cache, 8 x 16G FC ports, 3-Year 24x7 Expert Warranty

1.5M Max IOPS
performance
And less than 70us latency with 21Gb/s throughput for application acceleration
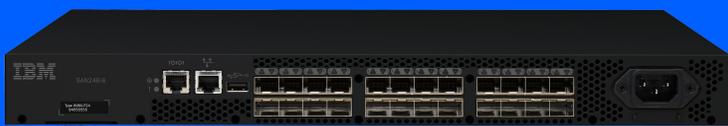

Up to 1.7PB
in 1 rack unit
Efficient design scales to 32PB for higher density storage solutions in small footprint

Enterprise
feature set
Hybrid Cloud, Encryption, Compression, 4-way Clustering, HyperSwap replication, & more

With the IBM FlashSystem 5200 and SAN Bundle, you can …

- Migrate data from over 500 storage systems with Spectrum Virtualize.

- Build a safe, secure, high performance hybrid cloud solution.

- Provide low-cost data encryption for critical data across your arrays.

- Build high availability and scalable infrastructure with Storage Networking.

IBM MTM 8960-F24 FC 2447
As low as **$9,995** per switch with IBM Special Bid Pricing.

SAN24B-6 ENTERPRISE SWITCH HIGHLIGHTS
- Provides all 24 FC ports with 16G shortwave optics for easy connectivity and scalability to FS5200
- Increases solution availability with multiple paths (configure 2 switches for full redundancy)
- Simplifies setup, management, and troubleshooting with advanced features (WebTools, EZSwitchSetup, Fabric Vision, ISL Trunking, and Extended Fabrics).
- See more feature details here.
